

 Art That Heals. A Van That Serves. A Community That Thrives.

Support Soul Medicine Mobile by purchasing original art by Nicole Alexander.

Every piece of art in this collection is more than a painting. It is a seed of healing. When you purchase a piece, you are not only bringing beauty into your home, you are helping bring wellness into communities.

Your support goes directly toward funding Soul Medicine Mobile that will offer breathwork, yoga, meditation, music, and artistic expression to people who may not otherwise have access to these experiences.

Why Art?

Art has always been my medicine. I have been painting since I was 10 years old, and my work blends nature, healing, and storytelling. Each piece is created with intention to reflect inner journeys and soulful connection.

This art sale is my way of giving back. Every brushstroke helps move this vision forward.

Soul Medicine Mobile was born from both my personal healing journey and the many people I've had the honor of supporting through my wellness work.

For years, I struggled with depression myself. Mental health challenges have touched my family and many close friends, and I've seen firsthand how isolating and overwhelming that experience can be. Through my own healing, I discovered tools that helped me find steadiness, hope, and meaning again—practices like meditation, breathwork, yoga, and creative expression.

As I began sharing these tools through my wellness business, I watched people struggling with anxiety and depression reconnect with themselves, find relief, and experience moments of joy and peace. Again and again, I was reminded of how powerful these simple, accessible practices can be.

But I also became deeply aware that not everyone has access to retreats, private sessions, or paid wellness services. And yet, everyone deserves support. Everyone deserves tools that help make stress more manageable and create space for joy, gratitude, and a sense of possibility.

Soul Medicine Mobile exists to bridge that gap—to bring healing practices directly into communities, to meet people where they are, and to remind them that they already carry the ability to support their own well-being.

This work is deeply personal for me. I often think of family members both living and passed, who struggled with mental health, homelessness and addiction. I can't help but wonder how

different their lives could be if they had access to care, tools, and compassionate support like this.

What brings me the greatest joy and gratitude is witnessing someone realize, often for the first time, that they are not broken and that they have the power to create a more fulfilling, meaningful life.

That is my why.
